KLENZCRETE INFORMATION

Our products **do not contain corrosive acids or hydroxides**, which means that they will not erode or “eat away” at the surface of the stone. This fact alone has made us the choice of thousands of restoration professionals worldwide. Along with restoration cleaners our product line offering includes every aspect of the restoration process from degreasers and grout cleaners to high performance sealers and strippers.

KLENZCRETE Benefits

- Won't damage the surface of stone
- Incapable of burning stone
- Requires no special equipment
- Biodegradable/Environmentally safe
- Won't burn user when contacting skin
- Preserves masonry by removing impurities

TIME SAVING: To use KLENZCRETE simply apply to the surface, wait and rinse. There is no pre-wetting, pre-washing, neutralizing, diluting or special rinsing required.

SAFER: KLENZCRETE **does not contain** Hydrofluoric acid, Hydrochloric acid, Muriatic acid or Sodium Hydroxide as some other products do.

Hydrofluoric Acid

Causes severe burns
 One of the most corrosive acids
 Can permanently damage sight
 Contact requires medical attention
 Burns both skin and deeper tissue
 Causes excruciating pain & burns

Hydrochloric Acid (Muriatic Acid)

Exposure may lead to death
 Damages mostly anything it touches
 Masonry surfaces become rough/etched
 Can cause eye damage & blindness
 Acid & vapors are highly corrosive

Hydroxides

Extremely corrosive
 Has been cited as a cause of cancer
 Aerosols can cause pulmonary edema
 Can cause permanent blindness
 Can react violently with water

KLENZCRETE

Concrete & Stone Cleaner

KLENZCRETE Concrete & Stone Cleaner is designed for the hardest to clean masonry surfaces. It makes old buildings, driveways, sidewalks, building entrances and even transit platforms look like new again. In fact, KLENZCRETE cleans grease and oil so effectively, it's ideal for warehouses, factories, garages or your home. Use before applying new sealer.

Coverage : Approximately 150 - 250 sq. ft. per gallon, depending on the porosity of the surface.

Packaging : 5 gallon pails
55 gallon drums

Concrete/Grease Cleaning

- Saturate the surface with KLENZCRETE.
- Agitate KLENZCRETE into the surface, then let product sit for 30-40 minutes.
- To clean, power wash the surface.

KLENZCRETE

Unglazed Brick & Polished Stone Cleaner

KLENZCRETE UBPS makes cleaning many surfaces easy even the most sensitive types of masonry. Almost as rapidly as you can apply it, KLENZCRETE UBPS loosens the grime that ordinary cleaners can't touch. Then, after rinsing with water, surfaces return to a new masonry appearance. It's ideal for cleaning the more delicate masonry surfaces.

Coverage : Approximately 250 - 400 sq. ft. per gallon, depending on the porosity of the surface.

Packaging : 5 gallon pails
55 gallon drums

Brick Cleaning

- Saturate the surface using max 40 psi with a fan tip **Do Not Atomize**
- A test patch will determine time needed to loosen dirt (5-15 min. Average).
Do Not Let Dry! Rinse off using 2000 psi.
